Subject: Microsoft Settlement.

Dear Sirs;

It looks to me that Microsoft was singled out by its jealous competitors and sympathetic government bureaucrats because of it's success.

I concur with the Senior's Coalition that the proposed settlement offers a reasonable compromise that will enhance the ability of Seniors and all Americans to access the Internet and use innovative software products.

God with the settlement agreed with the Government and nine state and end this costly and damaging litigation.

This settlement will have a positive impact on the American economy and help pull us out of the recession.

Dragging out this legal battle further will only benefit a few wealthy competitors's attorneys and special interest bigwigs!

Sincerely,

Arthur J. Sather
